Hello Ma'am,

I want to first start off by saying THANK YOU for the toys, snacks and personal items. Let me tell you a little about us. We are the hospital hub for all the wounded warriors here in Afghanistan prior to their aerovac to Germany. As I'm sure you have seen in the headlines and in the news, Afghanistan has become very busy. Now that the Taliban has caught the eye of the media, they will capitalize on it. Please don't rely on what the media has to say about us. I am here to say, WE ARE STRONG! Our Soldiers, Airman, Marines and Navy are working hard to play the "Away Game" so we don't have to play the "Home Game."

Most of the wounded that pass through our halls are not done....they are so eager to get back in the fight. I am so proud of them. Your gifts of kindness go a long way. No matter the size of the package, everyone is blessed at the love and care that our friends back home support us with. Not only do we take care of the wounded warriors, we also take care of the local population that are caught in the crossfire of this war. We also support a huge humanitarian mission here as well. We have the best doctors, nurses and medics in the world. Why not use their talents to support a nation that has gone without for so long. I truly believe we are making a difference in this country and your help has definitely been greatly appreciated. Thank you and May God continue to Bless you.
